

SUPER MOLICHOP

SUPER MOLICHOP BLOOM provides unrivalled show condition & shine. An extremely versatile, superior quality fibre feed. Bloom is rich in soya oil and contains a high specification supplement pellet.

When fed at suggested levels Bloom can be the sole concentrate part of the diet. It will supply the leisure horse in light to medium work with all the necessary vitamins, minerals and micronutrients. Bloom can also be used to boost an existing diet.

Pure protected yeast and probiotics are included in Bloom. Both are proven to aid fibre digestion. Bloom also contains optimum levels of Biotin and other nutrients such as zinc and methionine, all important for the growth of healthy hooves.

Bloom is brilliant when preparing horses for the show ring promoting condition without having a heating effect.

Suggested daily levels as sole concentrate diet:-

12hh (approx 250kg) 1.0kg Bloom

13hh (approx 375kg) 1.5kg Bloom

15hh (approx 500kg) 2.0kg Bloom

16hh (approx 625kg) 2.5kg Bloom

Oil 8% | Protein 12% | Fibre 19% | Ash 11%
Digestible Energy 8.2 mj/kg
Vitamin A 6,000 iu/kg | Vitamin D3 1,000 iu/kg
Vitamin E 30 iu/kg
